The TIS Accessibility Forum 2005

Interactive. Innovative. Inclusive.

Tata Interactive Systems (TIS) invites you to join us at the TIS Accessibility Forum 2005. Meet your peers in the industry, hear from experts, share experiences and learn from each other. The TIS Accessibility Forum 2005 will feature inputs from Sue Garrett of The Royal National College for the Blind (RNCB) and Sal Cooke of TechDis. They will shed light on the 'why, what and how' of accessibility in e-learning. The forum offers you the opportunity to join in with interactive sessions, get answers to your questions and contribute your knowledge and experience.
